Board of Directors
American Board of Toxicology (ABT)
P.O. Box 97786
Raleigh, NC 27624

Dear ABT Board Members,

This letter is to inform you that your organization appears to have a severe ethics problem. As a result, it seems highly unlikely at best that any respectable scientist would want to pay money to be accredited by your "nonprofit" organization, or would want the embarrassing letters of "ABT" affiliated with their name.

Please see attached letter to the American College of Medical Toxicology (ACMT) for a greater understanding of a fraudster extraordinaire in your midst. It is old Tobacco Scientist Bruce J. Kelman who authored your new *"Standard of Knowledge for the Professional Practice of Toxicology"*.

The hypocrisy of having Bruce J. Kelman author your standards brings the standard of your organization into question.

Sincerely,

Mrs. Sharon Noonan Kramer
