Dear Dr. McMahon,

Many thanks to you for taking the time to come to GAO and speak about your work. I found it quite interesting and will certainly provide us some valuable context and background for our audit.

Kind regards,
Elizabeth

Subject: Meeting today

Dear Elizabeth,

Thank you so much for taking the time today with your team to meet with Dr. Shoemaker, Sharon Kramer and me. I understand that your mandate restricts your freedom to act, but it was my personal pleasure to have the opportunity to share how the health consequences of chronic inhaled indoor mold could shape the context in which your mandate is completed. I am truly grateful for your time.

I travel home tomorrow and then will send to you the bibliography of epidemiological articles from the medical literature which support the concept that chronic exposure to the interior of water damage buildings can lead to multiple serious health problems.

Best regards,
Scott W. McMahon, MD
