Subject: from Sharon Kramer, congratulations on your acquisition of Veritox, Inc.

Dear Mr. Held,

The owners of Veritox, Inc. have close to \$50K in fraudulent interest accruing liens recorded against my property. With this acquisition does it mean that your corporation is the new lien holder?

I gave an interview today for Whistleblower radio. One may listen to it here:
<http://www.blogtalkradio.com/marti-oakley/2019/04/19/whistleblowerssharon-n-kramer-standing-against-judicial-corruption>

John Thomas, who has a masters in public health from Duke, has also written of the matter (as have many others).

One may read Mr. Thomas's writing on the matter here: <https://healthimpactnews.com/2019/one-womans-relentless-pursuit-of-the-truth-as-a-toxic-mold-whistle-blower/>

and here: <https://healthimpactnews.com/2019/toxic-mold-whistleblower-fears-for-her-life-i-exposed-one-of-the-biggest-frauds-in-america-and-it-continues-to-be-hidden/>

Thank you in advance for your reply,
Sharon Noonan Kramer

Good morning, Mr. Messina,

Thank you for getting back to me so quickly. This is a link to a three hour video that I made last fall titled "The Toxic Judgment, Veritox v. Kramer". https://www.youtube.com/watch?v=T-_469SzJgE

It's not going to win an Academy Awards, but it tells much of the back story of how those fraudulent liens came to be, how they remain in effect, and how obstructing justice for one is knowingly obstructing justice for thousands. There are fraudulent court docs & falsified electronic court records, statements made on video, etc, within The Toxic Judgment video.

Attached is the root of the problem. Its a bogus linear no threshold (LNT) risk model that Bruce Kelman and Bryan Hardin, two of the Veritox owners, created in 2002. I call it "The Veritox Theory" or the "GlobalTox paper".

It has been mass marketed and used as false proof that people claiming disabilities from water damaged building (WDB), including brain injuries, are lying about the WDBs causing the disabilities. Basically, its an insurer fraud scam based on junk science.

I have a degree in marketing. I called them on it in 2005 and showed how one could defeat it in court by forcing Mr. Kelman to talk about the exchange of money behind the marketing of the scam.

March 2005 Jury Finds "Toxic Mold" Harmed Oregon Family, Builder's Arbitration Clause Not Binding <https://www.prweb.com/releases/2005/03/prweb216604.htm>

At the time I wrote, I had no idea that the USDOJ was using Veritox owners Kelman & Robbins as expert defense witnesses and their bogus Veritox Theory to defeat liability for causation of disabling military families living in moldy military housing.

I had no idea that the University of California was profiting from it.

Its still a huge problem to this very day. See Reuters series "Ambushed at Home" and the links to congressional/senate hearings.

Needless to say, I am not the favorite person of the principals of J.S. Held's newest acquisition.

I am now 63 years old and my husband is now 67. Its very scary for me. I live daily with the threat hanging over my head that I may be physically hurt again for telling the truth; or that Veritox's (J.S. Held's?) fraudulent liens will be called in if someone does not make this literally terrorizing situation, stop.

Anything you can do to help, would be greatly appreciated.

WR,
Sharon Kramer
