Did Kelly show you his second declaration? It made it look like I didn't really talk to anyone and that I had malice for Kelman. And that I have done nothing on a national level and was just out to get Kelman. Which I had NO REASON to have personal malice for Kelman when I wrote that press release. Only in Kelly's mind, based on NOTHING. This is why I go ballistic when I hear that. It is key element to libel. It has hurt me badly.

Why would any of this affect Patti?

Kelly has 3 cases where VeriTox are the experts, right? Harris Martin is going to publish the judges' rulings and various court docs. There will be a trial transcript of this case. I am concerned that Kelly is not going to look so good if they ask Patti about me when coupled with docs from this case.

| I didn't see any mention of our declarations in the decisions. Was something said in court?

Yes. Kelman's attorney read your dec and Paul's that made it look like I didn't really talk to you all about the case. I think your decs were accurate as far as what was discussed. But, it made it look like I do have malice. Let's see. Who is the one promoting that concept? It made it look like I just decided to write something without verifying anything.

The reason I copied the Kilian transcript to a pdf and got it out was so attorneys would use it to expose the national deceit. When Kelly used it properly, I wrote about it to get the word out.

I can't believe it, Renee. I have done nothing but help him win cases. In the original SLAPP motion, I couldn't come to you all to verify that I had spoken to you and that Paul specifically told me he did not think it was perjury. Kelly controlled all four of my sources. Thus far, about \$300K. I could have walked away with no costs. I all would have had to do, was endorse that Kelman's science is accurate. I would rather slit my wrist than do that. It is perjury and directly contradicts what I have been telling Congress and the GAO. I would have had to shut up all the way around.

Thank God Paul did tell me he would not say it was perjury. From speaking to Kelly, I may have written perjury. And there in lays the problem, I think. But, I couldn't show I had actual sources when it came to the SLAPP motion. That too, is a key element in libel. Did I rely on anyone else's words. Kelly controlled all my sources.

| I remember some trial diary emails to family and friends, but didn't know you then. And I didn't post them anywhere.

Right. I was on that loop after the first go round after the case was decided. That is how we made contact initially. I think Susan sent them to me first.

| Did someone else?

No. They were never posted anywhere that I know of. I did not save them.

| Who? Did you receive any info from me about our case before you wrote the press release?

Yes. That is what I used to write a lot of it. And then I verified and researched your arbitration company, etc. But, I don't recall you writing anything about Kelman's testimony.

| I'm confused. What do you want me to know?

I want you to know that Harris Martin is publishing info of the case. I want you to know that now that we are going to trial, its all going to come out. You and Paul are fine.

I might as well show you. Now that we are going to trial, its all going to come out anyway.

I absolutely agree Kelman lied on the stand. How can you get from "that's ridiculous" to reading that testimony without thinking he was lying? Everybody in the room thought so.

against you. No way. They call me to testify, I will tell the truth. Which is that I do think you showed malice. I think you were out to get him. For whatever reason. And maybe I am still a little pissed that you did not take my advice. I am not used to people ignoring my advice. Its usually good advice. Bul am turning that page. Just lets not talk about that episode again. If you lay off me on that I can work with you.

So I will give you a second chance and put aside all the past enmity, because I don't like being on the outs with anyone, and because you can be some help to me ..well to my clients like the Schibels..if ya ever get around to it
